

Editorial Notice

Dear Colleagues,

Turkish Neurosurgery is the official Journal of Turkish Neurosurgical Society. In April 2015 Turkish Neurosurgical Society organized two important scientific events. The International Basic Neurosurgery Course and 29th Annual Scientific Congress of Turkish Neurosurgical Society. This year's IBNC course was the last of the first cycle and 185 participants from 70 different countries attended the course. The 29th annual scientific congress was held with the collaboration of Congress of Neurological Surgeons. The scientific level of the congress was outstanding.

I would like to encourage young neurosurgeons and residents to submit their papers they had presented at the congress as articles to Turkish Neurosurgery.

Talat KIRIŞ
