REVIEWERS BOARD

Dear Colleagues,

We present the list of our colleagues who provided peer review of the articles we published this year. The best measure of the objectivity of periodic scientific publications is qualified peer review. Evaluation of an article is a task that requires a lot of work and is carried out entirely voluntarily. All our reviewers performed these evaluations satisfactorily and promptly, being fully aware of their responsibility. We thank them for their valuable contributions and sincerely hope that their contributions continue.

Savaş CEYLAN
